

Peace of mind...

All our wines come **completely guaranteed**. In the unlikely of any of your wines arriving in less than perfect condition we will happily provide you with a full refund or credit against your next case - simply hang on to the bottle and we will collect it.

We want you to enjoy every bottle you drink - so if you ever find something that really is not you, we will gladly accept back any unopened bottles for a full credit or refund.

Wine for all seasons...

Your selected case will arrive on a preadvised date every three months, starting with a delivery the month you join, followed by further deliveries every three months. So for example should you join in **March**, if it is before the monthly delivery date you will receive cases in **March, June, September, December**. If your joining date is after the monthly delivery date, you will receive cases in **April, July, October and January**.

However as we do not wish to restrict you, if you do not wish to stick to the standard schedule, just add a note to your application form to let us know when you would like your cases and we will deliver according to your instructions.

Each case will be tailored to suit the season - with some great, fresh whites to keep you cool in the summer, and some big, warm reds to ward off those autumnal chills.
